### What's New in the TaskList For Jedit?

TaskList for Jedit plugin is a utility to help editing a file or showing comments when working on a file in jEdit. Installation: 1. Download TaskList for Jedit: 2. Unzip it somewhere on your computer. 3. Go to your jEdit preferences and add the path of the TaskList plugin into the File Association field (you can also add TaskList as an external editor if you want). 4. Install/uninstall the plugin. Configure: ===== Click on the TaskList for Jedit tab in the preferences dialog. Plugin's settings is here. Shortcuts: ===== Shortcut of TaskList for Jedit is to type "tlj" in "File->New menu", "tlj" in "Edit menu", "tlj" on keyboard or click on "Toolbar" button on a toolbar at the bottom of jEdit window. Tips: ===== Please send me mail if you have any comments or suggestions. License: ===== This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version. This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details. You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA Login help: ===== With the exception of using jEdit as an external editor, the jEdit uses the "colorer" to analyze the buffer. The colorer is used to show the source code of your file. So, in order to use TaskList for Jedit, you need to provide the list of contacts (i.e. "colorer group") to the TaskList plugin. NOTE: If you have changed the value of the colorer's "group" in the JEdit preferences dialog, you'll need to set the new value to the TaskList plugin. You can do it by either restarting the jEdit or TaskList for Jedit
